

McMinnville Transportation Bond Program

2017 Street Repair and Repaving Project

Dunn Place in SE McMinnville

18th Street in NW McMinnville

The 2014 Transportation Bond included \$5.2 million dollars for the rehabilitation and repaving portions of 84 City streets, totaling about 14 miles. The first two phases of the work were completed in 2015 and 2016 respectively. The third phase is scheduled for summer, 2017.

The 2017 Street Repair and Repaving Project will include repairs and repaving work to residential streets in various areas around the community. The project will improve approximately 3.36 miles of City streets, and will include accessibility upgrades where necessary. [Click here for a map of the project areas.](#)

This summer's paving work comprises approximately 25% of the street repair and repaving work that will be completed as part of the bond measure funded improvements. [Click here for information on each individual project area.](#)
